BASSANO LOST BALL GAME 9-1

The local ball team went down to defeat by a score of nine to one in a game played on the part of the locals caused their downfall. The Strathmore team fielded well and their timely scoring is almost every inning.

Bobbed pitched pretty fair ball, for Bassano but had very poor support. The locals met plenty of practice before they could into proper form.

The teams:
Strathmore—Hedford, Boston, Singleton, Brief, Landmill, Anderson, Le-
Singleton, Barker and Henry.
Bassano—Kelsey, catcher, O. Bobford,
pitcher, M. Gibson, 1 b. Fowler, 2 b.
Goodough, 3 b. Marchessault, Parlick
and Tiffin outfield, Sat. 8-5.

Laying of Cornerstone

(Continued from page 1)

rite of laying the cornerstone, while apparently meaningless to the uninitiated had been handed down through hoary ages from father to son by Masons and every ceremony had its own meaning. He told why it was fitting, that such an organization as the masons should lay the cornerstone and related in the order how they maintained their stand for better education and for the nobler things of life: the sovereignty of God and the brotherhood of man.

The architects plans were handed over and L. W. Shoop, chairman of school board read an address to the visiting most grand master of the grand lodge.

Among the visitors present were: H. W. Gibbons, Stocken P. M. Gleichen, J. A. Clemens W. M. Strathmore lodge, Leighton Hagger C. B. H. Wilson, J. A. MacDonald, W. J. McConnon, J. M. McLeary, T. H. Beseh, A. R. Yates and W. R. McKie, all from Strathmore lodge, and E. D. Hardwick and O. L. Breerton, from Gleichen.

The new school will be ready for opening by the commencement of the autumn term. An additional teacher will be secured making the teaching staff four in number. The present teachers are: Mrs. Golden, Miss Nellie Wheeler. At first it was intended that only two rooms should be finished but it was soon found necessary by the school board to change the original plans and to open finish the four rooms and open with three classes.

The building will be finished by the end of July, having been started about April 1. Schneider and Fryers, the former of Medicine Hat and the latter of Bassano, are the contractors. The school will be a two-story high with large spacious halls, large well-lighted rooms, and will be built of either stone or brick heating may be installed.

The members of the school board under whose regime the building was started and will be completed are: Chairman—L. W. Shoop, Member Harry Beckingham and H. C. Strathmore.

EXPECTED CROP WILL BE TEN MILLION

(Winnipeg Free Press)
It is expected that the wheat acreage of the Canadian west for 1913, will be very close to 10,000,000. The present precipitation, which is both general and thorough, has provided moisture sufficient to carry that great area, until the June rains were expected, and indeed, where dry farming methods have been used, it will probably carry the crop almost to the end of June. If the average of 1911 reaches to that of the past two years it may be said that the present moisture has added at least 40,000,000 bushels to the probable yield and given the average price of the present crop, that would represent \$34,000,000 or \$3.4 to every one of the 1,000,000 inhabitants of western Canada.

The old song about spring rain says: "It is not raining rain to-day, it is raining dollars."

The west may prophesize the song and say: "It is not raining rain to-day, it is raining dollar bills."

When crochets are predicting frost to follow the rain, but even a sharp touch of frost, will be undesirable, and but for the frost will not do away with the beneficial effects of the present rain and snowfall.

There were some sharp frosts ten days ago when considerable areas of wheat were just at the germination stage and it might be feared for farmers now in the country to watch these areas closely, and if they do not show rapid and healthy growth immediately after this rain to re-sow them either to wheat or oats.

TWENTY-FIVE CAMPS READY FOR EXCAVATING

Twenty-five contractors camp now stretch from Bassano to Lathrop and beyond giving an idea of the amount of work being done on the irrigation ditch construction. Each camp employs scores of men and an enormous amount of work will be done this year. The excavating has hardly commenced as yet but in a few months the work will be in full swing.

BROOKS NEWS

Club Day was a success although the large amount of business done by the drays made it impossible for the council to have the refuge and debris carried away on time.

Ben Calhoun was in town last Friday. Ben is a half-breed prairie, having learned to stick type, kick a press and play the "devil" generally three years in an Indian school. He resides on the Blackfoot reservation and has worked at this trade in Calgary.

Mrs. M. A. Falk, who has recently established a large dining hall in connection with her boarding house opened it, with a dance last Friday night.

E. O. Coult, until recently manager of the Bassano Blue Lumber Co., at this place and who was rescued by H. W. Buss, has insurmountable a new move in the lumber business. He has started a yard not far from the Red Deer river and is rafting his lumber down from the town of Red Deer. The first consignment has already been received.

Last week there were 75 carpenters and 1500 lbs. at work on various stone, room and residence in Brooks, and a result, there has been considerable change in the appearance of the town.

William Reynolds, of Detroit, Mich., who has located here in the business has had a new building put up, and was doing business 48 hours after his arrival.

A fine full grown antelope that had perhaps been the victim of coyotes, was found dead on the prairie two miles east of Brooks.

Tenders have been called for the erection of the new Methodist church work will probably be begun next week.

On the big Elizabeth farm at Tilley, conducted by a colony of Belgians, two women were injured Tuesday. One was drawn under a narrow which was pulled by an oil-pull tractor and had his leg broken in several places. Another in lifting a due harrow, had his nose split open by one of the wheels.

A deep excavation about a mile in length has been made on one of the big irrigation canals east of Brooks, and this work gives some idea of the vast amount of labor that will be required before the big irrigation system is completed. A great deal of contractors can be seen in all directions in the vicinity of Brooks and a great deal of dirt will be thrown before next winter.

The terrific wind of the storm of Saturday morning caused two or three teams to run away, blow down a few tents and tumbled down a chimney on A. D. Deane's place, blowing away and near sending some of the bricks through the roof.

J. WINKLER WON GUESSING CONTEST

Joe Winkler who is employed at the dam, won the fine kitchen range given by the W. J. Robinson hardware store for the closest guess to the number of wire nails in a box which has been displayed for some time. His guess was 3173 and there were 3169 nails in the box. Mr. Winkler has a home and will bring the range out there.

Other close guesses were: J. A. Stuart 3177; Goldie Stockwell 3189; E. Sides, 3199; Mr. Dock 3110; H. R. Johnson, 3200; J. T. McLean, 3161; Kussman 3201. Guesses ranged from 300 to 17000 and Messrs. Neysmeyer and Malloy were judges.

ALICK LAUDER

Brother of Famous Harry Lauder here on Monday

Alick Lauder, brother of the world famous Harry Lauder, and who rivals his brother as a Scottish Canadian and entertainer, will be at the Europa Theatre on Monday next.

Alick Lauder gave performances to crowded houses at London, Bazar, for 17 years. The London Sketchbook Club to be a "Harry Lauder the Second", and in fact Alick took Harry's place at "The Tivoli", when the latter was commanded to appear before the King. Bassano people will hope and see real Scottish humor as put on by a recognized night rooster.

JESSIE McLAUCHLIN CONCERT GOOD

The concert given here on Monday by Miss Jessie McLaughlin, with Owing Hill Sherry and Robert Buchanan, at the Europa Theatre, was a most successful performance. Miss McLaughlin is no stranger to those parts but she never gets tired of hearing her sweet voice. Mr. Sherry is a comedian of talent and Mr. Buchanan an accomplished pianist. Bassano people cannot but appreciate such musical treats.

MASONIC DANCE WAS MOST ENJOYABLE

The dance held by the local Masonic lodge in the evening was a most enjoyable one. The dancing hall was nicely decorated, the music was excellent and every guest was made more than welcome.

The supper was held in McCall's restaurant and was a most creditable one.

The hostesses of the dance were Mrs. G. W. Boyd, Mrs. P. Hawkins, Mrs. L. W. Shoop, Mrs. J. Golden, Mrs. J. A. Campbell and Mrs. W. A. W. Hames.

The reception committee members were: L. S. Hanson, P. E. C. Small, F. H. Berry, W. Loran, R. V. McKelvie and J. A. Campbell. Twenty-four dances were on the program and music and gaiety reigned supreme.

LOST—Sext. felt hat, at the dance. Finder kindly leave at this office.

Father Simmon of Gleichen will hold R. C. service in Europa Hall on Sunday.

EYE SIGHT YOUR EYES

will appreciate the ease and comfort derived from wearing "proper fitting glasses." When getting your eyes tested demand ability, reliability, and above all, sound experience—for experience is the chief thing in optical work.

TO REPRESENT CANADA

PREMIER AND CABINET MINISTERS LEAVE FOR OLD COUNTRY

Canadian Ministers Will Take Part in Discussion of Many Important Subjects—Will Endeavor to Further the All-Red Route Scheme—Will Also Urge the Adoption of a

Sir Wilfrid left in splendid health and spirits despite the constant and heavy strain of a long session of parliament. Indeed in point of buoyancy of spirits and physical endurance the premier is still one of the youngest members of his cabinet and appears as good for many years of arduous public service yet. First in rank among the younger premiers at the conference he is also the only one

While the Canadian ministers will take part in the discussion of all the subjects on the agenda for the conference, which will open on May 23, they will take the initiative in making proposals with regard to only two or three subjects. Canada is anxious to secure the speedy realization of the All-Red route scheme and with Pre-

mier Ward, of New Zealand, Sir Wilfrid will urge upon the imperial and Australian governments the desirability of taking another step by coming to some definite agreement looking to

The inauguration of a subsidized service between Great Britain and Canada on the Atlantic and between Canada and Australia and New Zealand on the Pacific.

Sir Wilfrid will also urge the adoption of a uniform naturalization law whereby naturalization papers secured in any one part of the empire will be recognized as constituting British citizenship in any other part of the king's dominions.

Another question that will be brought up by the Canadian representatives will be with regard to the status of foreign consuls-general in the overseas capitals. At present no

official status can be given any of the representatives of foreign powers at Ottawa and all diplomatic negotiations must be officially conducted through the medium of the Imperial

home and foreign offices. The red tape thus involved sometimes results in vexatious delays, although in practice Canada's interests as a self-governing Dominion have never suffered of late years. As a matter of fact, diplomatic negotiations affecting trade matters have of late been carried on directly by the Canadian gov-

ernment with various countries through the medium of their consuls.

general here. It is now proposed to give them an official status in keeping with the dignity of their representative position and to officially recognize them as semi-diplomatic agents for direct communication with their respective countries in matters of purely Canadian interest. Where imperial interests are concerned, of course, the normal reference of negotiations to the foreign office.

Sir Wilfrid will be the personal guest of His Majesty King George.

Will Not Renew Japanese Treaty
Ottawa, Ont.—Hon. W. S. Fielding, minister of finance, has given notice of an important resolution, which indicates that upon the termination of the existing treaties by Japan on

July 16 it is proposed to extend the recent tariff arrangements by which

each country is assured the most favored nation treatment for a period not exceeding two years, while other terms on the treaty are to be allowed to lapse.

The extension of the tariff arrangement will permit of the negotiation of

a new treaty covering the tariff and such other relations as may be deem-

rd advantageous. The resolution goes to indicate that it is not Canada's intention to adhere to the terms of the new Anglo-Japanese treaty recently signed.

Fernie.—At Corbin, B. C., they have

mining coal by steam shovel if further prospecting uncovers what now seems to be a possibility. As the result of uncovering of a section of very peculiar seams more than three hundred feet of coal is exposed in one continuous seam, and little work will determine whether it is possible to strip the top of the great body of coal and go shovelling it up with a steam shovel.

Edmonton, Alta.—The announce

ment was made recently by Hon. Duncan Marshall, minister of agriculture, of the selection of sites for the government's demonstration farms. They are at the following points:

Medicine Hat, Claresholm, Olds, Sedgewick, Vermilion, Stoney Plain and Athabasca Landing. Work will start at once and the agreement has

\$125,000 to spend on them.

Alberta Graduates at McGill

Montreal.—In the final examinations at McGill, the results of which were published recently, the following were granted the degree of B.Sc.: C. Childe, Calgary; Alberta; P. J. O'Toole, Montreal; Alberta; A.

Kelly, Edmonton, Alberta.

Newfoundland Seal Catch
St. Johns, Nfld.—Three hundred and five thousand seals valued at \$493,000 were secured by the 18 vessels of the Newfoundland sealing fleet during the season which has just closed. Last year the fleet reported a catch of 333,000 with a value of \$412,000.

Around Town

Mr. J. C. Lee was ill last week, but
 friends will surely be glad to hear
 that he is now in Calgary.

Ernest R. Muir was in Calgary on
 Sunday.

J. L. Trotman paid his weekly visit
 to Medicine Hat last Sunday.

O. A. Larsen, book keeper at McKim-
 m's camp, was in Calgary this week.

J. D. Stale, of Donnelly, took a trip
 to Calgary this week.

Prof. Hawkins was in Calgary on
 Wednesday.

A. Danilchuk was in Calgary over
 Sunday.

D. A. Rother spent a couple of days
 in Calgary.

Constable Holstein from Berry Creek
 was in town this week.

C. Murdoch manager of the Bannock
 Trading Co. store, was in Calgary on
 Wednesday.

F. H. Ulms and Dr. Anderson of
 Brumby were in town on Wednesday
 and were in the Masonic procession.

Alex. Hill, from Edinburgh, Scotland
 arrived in town last week to join the
 staff of the Bank of Commerce.

Can a granular be found in Alberta
 after this three days solid rainfall? If
 so that man won't be satisfied anywhere.

Several members of the Council
 will be around the board on Monday
 night when a meeting will be held.

F. E. McDonald returned from
 Strathmore last week with a carload of
 pigs.

A great amount of water well is being
 dug down at Chert's Corners north of
 the Red Deer River.

The executive of the local club
 will meet Friday night to discuss
 details of grounds on which to play.

Mr. Brown, of High River, who is
 visiting Mrs. Davis, was a dignified
 solo last Sunday night in the Presby-
 terian church.

The Canadian Northern expects to
 locate 25,000 immigrants on homesteads
 this year. You can join the
 Canadian West grow.

W. J. Wagner, of Warrington, was in
 town yesterday to discuss the
 details of one of the local farms, naturally.

Mr. W. March, who owns a 2,000-acre
 farm near Grassano, was in town last
 week with his automobile. This was
 his first visit to Bassano and
 he was surprised at the size of the town.
 He passed through Brooks and expected
 to find a village similar in
 size to Bassano. When he reached
 Bassano he found a town much
 larger than he had expected.

 week with his automobile. This was
 his first visit to Bassano and
 he was surprised at the size of the town.
 He passed through Brooks and expected
 to find a village similar in
 size to Bassano. When he reached
 Bassano he found a town much
 larger than he had expected.

Mr. W. March, who owns a 2,000-acre
 farm near Grassano, was in town last
 week with his automobile. This was
 his first visit to Bassano and
 he was surprised at the size of the town.

Everybody Welcome - Walter Turner, Prop.

THE CANADIAN BANK OF COMMERCE

SIR EDWARD WALKER, C.V.O., LL.D., D.C.L., PRESIDENT
 ALEXANDER LAIRD, GENERAL MANAGER

CAPITAL - \$10,000,000 REST - \$7,000,000

THE SAVINGS BANK DEPARTMENT

The Canadian Bank of Commerce will receive deposits of \$1 and
 upwards, on which interest is allowed at current rates. There is no
 delay in withdrawing the whole or any portion of the deposit. Small
 deposits are welcomed.

Accounts may be opened in the names of two or more persons, to be
 operated by any one of the number or by the survivor. A joint account
 of this kind saves expense in establishing the ownership of the money
 after death, and is especially useful when a man desires to provide for
 his wife, or for others depending upon him, in the event of his death.

UNION BANK OF CANADA

Capital, Rest and
 Undivided Profits, \$1,000,000.
 Total Assets Over \$15,000,000.

Pay by Cheque

Pay by Cheque - the
 cities almost invariably
 pay by cheque. Why
 should not business men on the farms?

It is safer and more convenient than paying by cash,
 and gives you an indisputable receipt for every payment.

Try a Checking Account for a year and you'll never
 want to give it up.

Office formerly occupied by C. Harris

A GOLD MINE

Professor Shaw, the greatest agricultural
 economist the world ever saw, who visited
 the Bow Valley lands said: "There is greater
 wealth in the upper 12 inches of soil in
 Alberta than in all the gold-mines in America."

THE PROFESSOR WAS RIGHT

The soil of Alberta is amongst the richest in
 America, containing all the valuable constitu-
 ents that nature has stored up during past
 centuries. And it only awaits the turn of
 the plow to yield up its treasures.
